Address: 85/c, Walgama Road, Gammanpila, 12530, Bandaragama, Sri Lanka (Home)

ABOUT ME

Product Designer with a Software Engineering background, focused on finding the right problem before touching a screen. I explore, test, and challenge ideas until the right solution emerges. My experience spans dashboards, booking platforms, and internal tools across B2C and B2B, designed for people who use them every day. I pay attention to the details and edge cases that often get skipped. Working closely with engineers and within existing design systems, I design with real constraints in mind so the work can actually ship.

SKILLS

Product Design

Product Thinking | Business Sense | Ai Fluency | Coding Knowledge | Critical Thinking | Storytelling | Communication And Collaboration | Research Literacy | Problem Solving

UI/UX Design

Figma Proficiency | UI/UX Design (Interaction, Wire-framing, Prototyping) | Design Systems | Usability Testing | User Research | Ethical Design | Social Psychology In Design

Tools

Figma | Framer | Claude Code | GitHub | Miro | Excalidraw | Replit | Jira | Affinity | Lovable

WORK EXPERIENCE

UI/UX DESIGNER INTERN – MILLENNIUMIT ESP – 02/04/2026 – 01/10/2026 – COLOMBO, SRI LANKA

Website: https://www.mitesp.com

- Documented design decisions and created handoff specs for developers.
- Contributed to wireframes and interactive prototypes in Figma for banking products.
- Collaborating with senior designers and engineers.
- Worked within existing design systems.
- Participated in design reviews and cross-functional standups.
- Supported user research through surveys and competitive analysis.

EDUCATION AND TRAINING

23/03/2023 – 12/07/2026 Plymouth, United Kingdom
BSC (HONS) IN SOFTWARE ENGINEERING University of Plymouth

Website https://www.plymouth.ac.uk/ | **Final grade** Second Class Honours (Upper Division)

PROJECTS

MACKS mobile app

Design a mobile system that gave a field sales team real-time visibility.

Link https://www.dulen.me/work/macks-app

House of Camellia

A premium womenswear brand for Sri Lanka, designed and built end to end.

Link https://www.dulen.me/work/camellia

HueLab

An AI assisted tool that turns a feeling into a complete, accessible color system with contrast guaranteed by math instead of guesswork.

Link https://www.dulen.me/work/huelab

LANGUAGE SKILLS

Mother tongue(s): **SINHALA**

Other language(s): **ENGLISH - PROFESSIONAL WORKING PROFICIENCY**

NETWORKS AND MEMBERSHIPS

NSBM Green University
IEEE Student Branch

Actively contribute to UI/UX design and technical discussions through events, conferences, and peer collaboration.

NSBM Green University
FOSS Community member

Actively contribute to various FOSS events and community building.

Good design holds up in the parts nobody notices. I stay curious about how products actually get used, keep testing my assumptions against real behavior, and look for teams that treat design as part of the build from day one. That's the kind of work I want to keep doing.

Sri Lanka , 2026
